

org.jgap.ConfigurationTest.test
VerifyStatelsValid_2

```
graph LR; A[org.jgap.ConfigurationTest.test  
VerifyStatelsValid_2] --> B[org.jgap.JGAPTestCase.assertEquals]; A --> C[org.jgap.Configuration.is  
Locked];
```

The diagram illustrates a call to the `assertEquals` method from the `testVerifyStatelsValid_2` method in the `org.jgap.ConfigurationTest` class. The source node is shaded gray, and the target node is white. A blue arrow points from the source to the target.

org.jgap.JGAPTestCase.assertEquals

org.jgap.Configuration.is
Locked
