

org.jgap.impl.IntegerGene
Test.testCompareToNative_1

```
graph LR; A["org.jgap.impl.IntegerGene  
Test.testCompareToNative_1"] --> B["org.jgap.JGAPTestCase.assert  
Equals"]; A --> C["org.jgap.Gene.getAllele"]
```

The diagram illustrates a sequence of method calls. A central box on the left, representing the test method `org.jgap.impl.IntegerGeneTest.testCompareToNative_1`, has two outgoing arrows. The top arrow points to a box representing `org.jgap.JGAPTestCase.assertEquals`, and the bottom arrow points to a box representing `org.jgap.Gene.getAllele`.

org.jgap.JGAPTestCase.assert
Equals

org.jgap.Gene.getAllele
