

org.jgap.impl.CompositeGene
Test.testAddGene_1

```
graph LR; A[org.jgap.impl.CompositeGene  
Test.testAddGene_1] --> B[org.jgap.JGAPTestCase.assertEquals]; A --> C[org.jgap.impl.CompositeGene.size];
```

The diagram illustrates a call to the `assertEquals` method from the `Test.testAddGene_1` method. The source method is highlighted in a grey box, and the target method is in a white box. A blue arrow points from the source to the target. A second blue arrow points from the source to another white box containing `org.jgap.impl.CompositeGene.size`.

org.jgap.JGAPTestCase.assertEquals

org.jgap.impl.CompositeGene.size
