

org.jgap.eval.Population  
HistoryTest.testAddPopulation\_1

```
graph LR; A[org.jgap.eval.PopulationHistoryTest.testAddPopulation_1] --> B[org.jgap.JGAPTestCase.assertEquals]; A --> C[org.jgap.eval.PopulationHistory.size];
```

The diagram illustrates a call to the `assertEquals` method from the `testAddPopulation_1` method in the `org.jgap.eval.PopulationHistoryTest` class. The source node is shaded gray, and the target nodes are white. Two blue arrows originate from the source node, pointing to the two target nodes.

org.jgap.JGAPTestCase.assertEquals

org.jgap.eval.Population  
History.size
