

org.jgap.ConfigurationTest.test
VerifyStatelsValid_7

```
graph LR; A[org.jgap.ConfigurationTest.test VerifyStatelsValid_7] --> B[org.jgap.JGAPTestCase.assertEquals]; A --> C[org.jgap.Configuration.isLocked];
```

The diagram illustrates a call graph starting from the method `org.jgap.ConfigurationTest.testVerifyStatelsValid_7`. This method is shown in a grey box on the left. Two blue arrows originate from its right side. The top arrow points to the method `org.jgap.JGAPTestCase.assertEquals` in a white box. The bottom arrow points to the method `org.jgap.Configuration.isLocked` in another white box.

org.jgap.JGAPTestCase.assertEquals

org.jgap.Configuration.is
Locked
