Test.testOperate_4] --> B[org.jgap.JGAPTestCase.assertEquals]; A --> C[org.jgap.impl.GreedyCrossover

```

The diagram illustrates a call to the `assertEquals` method from the `testOperate_4` method in the `org.jgap.impl.GreedyCrossoverTest` class. The source node is shaded gray, while the target nodes are white. Two blue arrows originate from the right side of the source node, pointing to the two target nodes.
