

org.jgap.impl.Tournament
SelectorTest.testSetTournamet
Size_0

```
graph LR; A["org.jgap.impl.TournamentSelectorTest.testSetTournametSize_0"] --> B["org.jgap.JGAPTestCase.assertEquals"]; A --> C["org.jgap.impl.TournamentSelector.getTournamentSize"]
```

The diagram illustrates a call from the method `org.jgap.impl.TournamentSelectorTest.testSetTournametSize_0` to two other methods: `org.jgap.JGAPTestCase.assertEquals` and `org.jgap.impl.TournamentSelector.getTournamentSize`. The source method is highlighted in a grey box, while the target methods are in white boxes. Blue arrows indicate the direction of the calls.
