

org.jgap.BaseGene.BaseGene

```
graph LR; A[org.jgap.BaseGene.BaseGene] --> B[org.jgap.Configuration.get JGAPFactory]; A --> C[org.jgap.Configuration.is UniqueKeysActive];
```

The diagram illustrates a class, `org.jgap.BaseGene.BaseGene`, which is highlighted with a gray background. Two blue arrows originate from the right side of this class box and point to two separate white boxes. The top box contains the text `org.jgap.Configuration.get JGAPFactory`, and the bottom box contains the text `org.jgap.Configuration.is UniqueKeysActive`.

org.jgap.Configuration.get
JGAPFactory

org.jgap.Configuration.is
UniqueKeysActive
